BRIGADE BUZZ

EVERY ACHIEVEMENT HAS A STORY, EVERY LEARNER HAS A VOICE.

GURRAMGUDA

Student Spotlight

Huge congratulations on this wonderful achievement! Your success is a true reflection of your hard work, dedication, and determination. Seeing you reach such an incredible milestone, including your success with Brigade Vista 2026, is genuinely inspiring and a moment to be proud of.

Brigade public school

Inter-School Event

300 Participants **14** Schools

1

Proud Win

A celebration of teamwork, confidence and ownership.

Academic Spotlight

1st Place in Brigade Vista 2026

Brigade Public School proudly hosted Brigade Vista, a vibrant celebration of talent, creativity, confidence, and teamwork. The event brought together students from different schools, providing them with a platform to showcase their skills, learn from one another, and celebrate the spirit of healthy competition.

Brigade Public School successfully conducted Brigade Vista – Chess and Badminton Championship. Students participated in a variety of events, including Show and Tell, Story Telling, Elocution, Extempore, Seminar, Quiz, and Art Competitions. The enthusiasm, and confidence displayed by the participants made every event truly memorable.

From the Principal's Desk

This term, Brigade Public School moved learning well beyond the textbook, designing age-appropriate activities across every grade that encouraged students to observe, question, predict and reason rather than simply remember. Our youngest learners explored the world through play and sensory discovery, while older students deepened their thinking through structured, hands-on and reflective work.

We balanced cognitive, physical, creative and emotional growth, so no term felt one-dimensional, and wove in values and culture through assemblies and celebrations built on reflection, not performance.

— G. Vijayalakshmi

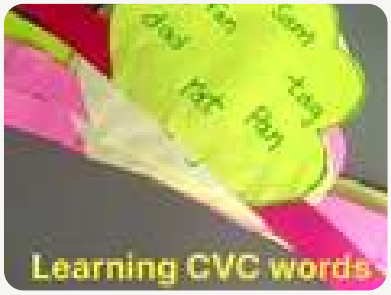

August brought our youngest learners a month of hands-on discovery — each activity chosen to build a specific early skill through play.

PRE PRIMARY — NURSERY, PP1 & PP2

- **Friendship Day:**

Children built social-emotional skills as they learned to share, care, cooperate, communicate with kindness towards their friends — turning a celebration into an early lesson in empathy.

- **CVC WORDS ACTIVITY:**

Guided children to blend beginning, middle and ending sounds, helping them read, spell and write simple three-letter words independently — an early, joyful step into phonics.

- **COLOUR SPLASH:**

Let children experiment and predict what happens when colours combine, sharpening colour recognition and fine motor skills through joyful, hands-on painting and splashing.

- **SAFE CIRCLE ACTIVITY:**

Helped children identify safe and unsafe situations, understand the importance of trusted adults, and practise saying "No" and speaking up when something feels unsafe.

- **RAKSHA BANDHAN ACTIVIY:**

Deepened children's understanding of the bond between siblings through rakhi-making, nurturing fine motor skills, creativity and a spirit of sharing and care.

- **PUZZLE ACTIVITY:**

Built problem-solving, observation and fine motor skills as children matched shapes, colours and patterns — developing patience and confidence with every piece placed.

- **PRE-INDEPENDENCE DAY & BONALU:**

Introduced children to the Indian National Flag and the significance of Independence Day, alongside the Bonalu festival's traditions, decorations and food — connecting national pride with local culture.

HOUSE ASSEMBLY

Shakti House — Leadership and Responsibility: Prompted students to examine what leadership means in their own lives, moving past definitions into reasoned, student-led reflection.

Pragathi House — Gurupurnima: Encouraged students to reflect critically on the role of a mentor, deepening their appreciation of the guru-shishya tradition beyond ritual observance.

GRADES 6–8

Kaushal Bodh Activity **:** *Presented students with real-world scenarios requiring practical judgement, helping them apply classroom learning to genuine decision-making.*

— LIFE SKILLS

GRADES 1–8

LANGUAGE & COMMUNICATION

- **DRAWING ACTIVITY:**

Pushed students to observe closely and make deliberate creative choices, rather than copy — building visual analysis alongside expression.

HANDWRITING COMPETITION:

Combined sustained focus and self-evaluation, as students compared and refined their own formation and spacing against a model.

- **ELOCUTION COMPETITION :**

Required students to organise an argument, anticipate audience reaction and speak with conviction — a direct exercise in structured, persuasive thinking.

- **POEM COMPOSITION (GRADE 8):**

Asked students to distil complex ideas or emotions into precise, structured language — a higher-order exercise in abstraction suited to this grade.

- **SENTENCE CHUNKING ACTIVITY:**

Trains students to break down complex sentences into logical units, deepening comprehension by making them analyse how meaning is built.

- **READING COMPREHENSION:**

Went beyond surface recall, pushing students to infer intent, compare viewpoints and justify their interpretation of a text.

AUGUST MONTH

EVENTS

BRIGADE VISTA:

A 2-day inter-school event with 300 participants from 14 schools, giving students a platform to plan, rehearse and execute performances independently, building confidence, teamwork and ownership. A proud moment for the school as we secured first place overall and won the trophy.

NATIONAL SPORTS DAY:

Marked in honour of hockey legend Major Dhyan Chand, with competitions conducted across Grades 1 to 8 — encouraging students to strategise as teams and reflect on performance, building sportsmanship alongside physical fitness.

INDEPENDENCE DAY:

Engaged students in understanding the meaning behind national symbols and freedoms, deepening civic awareness beyond ceremony. The day also featured Van Mahotsav, with Chief Guest Mr. M.J. Akbar, IFS, Chief Conservator of Forests (Retd), joining management and parents in planting trees on campus.

GRADES 1–8

SCIENCE & APPLIED LEARNING

- **COMPOST MAKING USING KITCHEN WASTE (GRADE 6):**

Had students observe, hypothesise and track decomposition over time — turning a sustainability lesson into a genuine scientific inquiry at an age-appropriate depth.

- **HYDROPONICS (GRADE 8):**

Challenged students to question traditional assumptions about farming and reason through a soil-less growth system — critical thinking calibrated to secondary-level science.

- **EXPLORING MAGNETS (GRADE 6):**

Encouraged students to form and test their own hypotheses about magnetic behaviour, rather than simply observe a demonstration.

- **Brain Gym & Cognitive Skills Activities (Grade 8):**

Targeted higher-order focus, memory and cross-lateral thinking through structured cognitive challenges suited to this age group.

AUGUST MONTH

CELEBRATIONS

FRIENDSHIP DAY:

Created space for students to discuss what makes friendships meaningful, reinforcing empathy and cooperation through reflection, not just celebration.

RAKHI CELEBRATION:

Helped students explore the values behind the tradition — trust and responsibility — connecting cultural practice to everyday behaviour.

Educational

FIELD TRIP

Educational Trip to Shilparamam & Tribal Museum: Moved learning outside the classroom, prompting students to observe, question and draw connections between craft, culture and history first-hand.

AWARDS

- **Dr. A.P.J. Abdul Kalam Ignited Minds Award:** A proud moment for Brigade Public School – our Director and Principal were honoured with the prestigious Dr. A.P.J. Abdul Kalam Ignited Minds Award for Best School Director and Best Principal, a recognition of the school's continued commitment to excellence in education.

- **COSMIC QUEST 2026 – FINALISTS:**

A proud moment as Grade 8 students Gopi Satwik and Prashastha (supported by mentor Mrs. Kiranmai of the Science Department) were selected for the final round of Cosmic Quest 2026, conducted by Erudite Space Education at the IIT campus. They had the opportunity to explore ongoing projects on campus and meet subject HODs and alumni.

UPCOMING

- Pre-Celebrations: The school will celebrate Janmashtami and Teachers' Day on 3rd September 2026.
- Ganesh Chaturthi: Students will engage with the traditions and significance behind the festival
- TED-Ed Student Talks Launch : Empowering students aged 6–18 to develop big ideas while building critical thinking, research, listening, and public speaking skills.
- Summative Assessment 1: Commences 28th September 2026. Thorough revision begins 7th September 2026, followed by 2 mock assessments to prepare students well ahead of the exam.
