
BRIGADE
PUBLIC SCHOOL

VOL. 1 | ISSUE 4 | OCTOBER 2026

BRIGADE BUZZ

EVERY ACHIEVEMENT HAS A STORY, EVERY LEARNER HAS A VOICE.

Welcome to the October edition of Brigade Buzz! This month, we celebrate inspiring recognition, purposeful initiatives and the dedicated people who make our school community thrive.

From the Headmistress's Desk

At Brigade Public School, we believe that every achievement tells a story of commitment, teamwork and the courage to keep growing. Education is not confined to textbooks or classrooms; it is reflected in the values we practise, the choices we make and the positive contributions we bring to the world around us.

The recognitions featured in this edition encourage us to strengthen our efforts towards holistic development, student well-being and sustainability. They remind us that meaningful progress is possible when educators, learners and families work together with a shared purpose. May these milestones inspire every child to participate with confidence, care with responsibility and continue striving for excellence.

MILESTONES THAT INSPIRE

DYNAMIC SCHOOLS RECOGNITION

A celebration of achievement for Brigade Public School at the Education News Network's Dynamic Schools Awards. This proud recognition celebrates the dedication, shared vision and continuous efforts of our school community in creating a vibrant school environment and meaningful learning experiences for every child.

GOSHARPENER SUSTAINABILITY SUPERSTAR 2026

A moment of appreciation at the GoSharpener Sustainability Superstar 2026 event. The recognition reflects our focus on well-being, sustainability and responsible practices, while encouraging learners to become thoughtful contributors to their community. It also reinforces the importance of making mindful everyday choices, caring for our surroundings and understanding how small actions can create a positive impact. By nurturing awareness, empathy and a sense of shared responsibility, we aim to help students grow into informed and environmentally conscious citizens. Through simple, everyday actions such as reducing waste, reusing materials, conserving water and keeping our surroundings clean, learners can turn awareness into responsible habits. The initiative also highlights the value of teamwork, compassion and active participation in building a healthier environment. We encourage every student to make thoughtful choices at school and at home, inspire others through positive action and remember that caring for the planet is a shared responsibility. Together, small steps can lead to meaningful change.

SCHOOL LIFE & DAILY ROUTINES

General Assembly: Starting Each Day Together

At Brigade Public School, the General Assembly is a meaningful start to the school day. Students and teachers gather as one community to pause, reflect and prepare for the day ahead. The assembly provides a shared space for prayer, thought, announcements and important messages, helping every learner begin the day with a calm mind, a positive attitude and a sense of belonging.

A MOMENT OF PRAYER & REFLECTION

The assembly brings students together in an atmosphere of respect and discipline. Through the morning prayer and moments of reflection, children learn to cultivate gratitude, mindfulness and inner calm. Standing together encourages a shared sense of responsibility and reminds students to approach each day with kindness, sincerity and purpose.

UNITY, DISCIPLINE & PARTICIPATION

Taking part in the General Assembly helps students practise punctuality, orderly conduct and attentive listening. Gathering in formation teaches them to respect common routines, follow instructions and be considerate of others. The collective participation of different classes strengthens school spirit and builds a sense of unity across the student community.

BUILDING VALUES FOR EVERY DAY

The General Assembly is more than a daily gathering; it is an opportunity to nurture character and strengthen the values that shape a responsible school community. It encourages students to be respectful, disciplined, thoughtful and ready to learn. Beginning each morning together reinforces the message that every day brings a fresh opportunity to grow, contribute and make a positive difference.

CLASSROOM CHRONICLES

Language, Learning & Life Skills

At Brigade Public School, every classroom is a space where curiosity is encouraged and learning comes alive. Through language enrichment, focused classroom practice, interactive displays, purposeful writing and active participation, students strengthen communication, concentration, creativity and independent work habits. Each learning experience gives children the confidence to share ideas, practise new skills and take greater responsibility for their progress.

DISCOVERING IDEAS • BUILDING SKILLS • LEARNING TOGETHER

HINDI LANGUAGE ENRICHMENT

Students explored the Hindi words for “balance” and “cooperation” through guided vocabulary practice. They discussed the meanings, formed simple sentences and identified opposite words, making language learning meaningful and enjoyable. Speaking and sharing their answers helped learners practise pronunciation and express ideas with confidence. Activities like these build a stronger vocabulary while encouraging children to listen carefully, think independently and use language in everyday situations.

INDEPENDENT LEARNING IN ACTION

Learners engaged in individual written classroom work, practising concentration, patience and accuracy. They listened to instructions, organised their work and completed tasks at their own pace. Such focused activities help children apply what they have learnt, recognise their progress and develop confidence in their abilities. Regular independent practice also nurtures responsibility, neatness and the habit of completing a task with care.

SETTING GOALS, SHAPING SUCCESS

Students explored the value of setting goals through a colourful classroom display. They were introduced to the steps of dreaming, planning, focusing and taking action. The discussion helped them understand that success is built through small, consistent efforts rather than one big step. By identifying achievable goals and thinking about the actions needed to reach them, learners are encouraged to stay motivated, make thoughtful choices and celebrate their progress.

FOCUSED CLASSROOM LEARNING

Our students worked attentively on their classroom tasks while the teacher guided and supported their progress. The session highlighted the importance of regular practice, discipline and individual attention in building strong learning foundations. Children were encouraged to follow instructions, ask questions when needed and complete each activity with care. A calm and supportive classroom environment helps every learner participate meaningfully and develop confidence in new concepts.

ACTIVE PARTICIPATION & ENGAGEMENT

Students took part in a classroom learning session, listening, observing and engaging with the lesson. They responded to questions, followed explanations and shared their understanding as the activity progressed. These everyday learning experiences nurture curiosity, attentive listening and active participation. When children are encouraged to contribute, they become more confident communicators and take an active role in their learning. Such interaction also helps teachers recognise individual needs and guide each child effectively.

LIBRARY CORNER

Where Every Book Opens a New World

Our school library is a welcoming world of stories, ideas and discovery. During library time, students explored colourful books, enjoyed quiet reading and shared the excitement of learning with their friends. The comfortable reading area encouraged every child to slow down, turn a page and become immersed in a new story.

THE JOY OF READING

Books invite children to explore new places, meet fascinating characters and discover fresh ideas. Every reading experience strengthens language, imagination and confidence.

In the library, students learn to choose books, read independently and enjoy stories together. These moments build curiosity, concentration and a lasting connection with learning.

GROWING THROUGH EVERY PAGE

Reading plays an important role in a child's overall development. It enriches vocabulary, improves comprehension and helps learners express their thoughts with clarity. As children explore different genres and subjects, they gain knowledge, develop their imagination and begin to see the world from new perspectives. A good book can inspire questions, encourage thoughtful conversations and spark ideas that continue long after reading time is over.

The library also offers opportunities to practise patience, focus and independent learning. When students read alongside their classmates, they share recommendations, listen to one another and celebrate the discoveries they make. These small experiences help create a positive reading culture and remind every learner that books can be both informative and enjoyable.

Reading regularly can also strengthen listening and speaking skills. New words become part of a child's vocabulary, stories provide meaningful examples of expression, and interesting topics give students confidence to participate in discussions. Every visit to the library becomes a chance to learn something new and communicate it with others.

At Brigade Public School, we encourage our students to make reading a regular habit—at school and at home. Families can support this journey by setting aside a few minutes each day for shared reading, talking about favourite characters and celebrating the books children choose. May every story they open bring a new lesson, every page inspire curiosity, and every book help them grow into confident, creative and lifelong learners.

SCHOOL IN ACTION

Vedantu & TED-Ed Launch

Brigade Public School proudly launched Vedantu and TED-Ed, two enriching learning initiatives that bring together academic support, curiosity and the power of student expression. The launch introduced opportunities for learners to strengthen subject understanding, explore meaningful ideas and communicate with confidence.

VEDANTU FOUNDATION LEARNING

The Vedantu programme supports concept-based learning and helps students build strong academic foundations for competitive examinations such as NEET and JEE.

TED-ED STUDENT TALKS

TED-Ed offers a platform for students to explore ideas, shape their thoughts and share perspectives through confident speaking.

A PLATFORM FOR IDEAS

The launch brought educators together to highlight the value of curiosity, thoughtful discussion and meaningful student participation.

CONFIDENCE THROUGH COMMUNICATION

Together, Vedantu and TED-Ed encourage learners to become confident communicators, curious thinkers and responsible contributors.

LEARNING INSPIRED BY EDUCATORS

The programme recognises the role of educators in guiding learners towards creativity, independent thinking and academic growth.

A FUTURE-READY LEARNING JOURNEY

Students are encouraged to listen actively, express their views clearly and develop presentation skills that support lifelong learning.

GROWING THROUGH KNOWLEDGE & EXPRESSION

Vedantu strengthens the academic journey by supporting clear concepts, structured practice and confidence in learning. TED-Ed complements this by encouraging students to think critically, communicate effectively and share ideas that can inspire others. These initiatives reflect Brigade Public School's commitment to providing engaging, future-focused learning experiences that nurture capable, creative and confident learners.

LEARNING BEYOND THE LAUNCH

ACADEMIC SUPPORT

Vedantu offers students an additional way to strengthen concepts through guided learning and practice. It encourages them to clarify doubts, build understanding and approach academic goals with confidence.

THE POWER OF EXPRESSION

TED-Ed creates a platform for students to listen, share ideas and communicate their thoughts. Such opportunities help learners become confident speakers who respect different viewpoints.

GROWING AS CURIOUS LEARNERS

Together, these initiatives nurture curiosity, creativity and independent thinking. Brigade Public School encourages every student to participate, explore new ideas and grow as a thoughtful learner.

SPORTS & AFTER-SCHOOL TRAINING

Building Skills, Confidence & Team Spirit

At Brigade Public School, sports and after-school programmes provide students with valuable opportunities to learn beyond the classroom. Through chess and skating, learners develop concentration, strategic thinking, balance, coordination and perseverance. Guided practice encourages every child to participate, improve at their own pace and enjoy an active, healthy lifestyle.

CHESS: THINK, PLAN & PLAY

Chess sessions introduce students to the value of patience, focus and thoughtful decision-making. With guidance from the instructor, learners explore the chessboard, understand piece movements and practise planning their moves. Each game becomes an opportunity to think ahead, solve problems and learn graciously from both success and challenge.

LEARNING THROUGH EVERY MOVE

Students take turns at the chessboard, observe one another's strategies and apply what they have learnt in practice. Chess nurtures memory, logical reasoning and sportsmanship while helping children build confidence in making independent decisions.

SKATING: BALANCE & BRAVERY

The skating programme gives students a chance to develop balance, body coordination and control in an energetic outdoor setting. Wearing appropriate protective gear and following the instructor's guidance, learners practise essential techniques and gradually gain confidence on wheels.

ACTIVE LEARNING, CONFIDENT LEARNERS

Through regular practice, students strengthen their physical fitness, determination and ability to persevere. Skating also encourages discipline, respect for safety instructions and mutual support as children learn together, celebrate progress and enjoy the excitement of an active lifestyle.

MORE THAN GAMES — LESSONS FOR LIFE

Whether planning a move on the chessboard or finding balance on skates, students learn that progress comes through practice, patience and a positive attitude. These enriching activities reflect the school's commitment to nurturing well-rounded learners who are confident, active and ready to take on new challenges.

PARENT ENGAGEMENT

Parents as Active Participants

At Brigade Public School, we value the partnership between parents and educators. Star Meet and school events provide meaningful opportunities for families to participate, interact, share experiences and celebrate the learning journey. Parents' presence and involvement help children feel encouraged and valued, while building a warm, connected and supportive school community.

PARENTS JOINING THE CELEBRATION

Parents and family members bring warmth and enthusiasm to school events through their active presence. Their participation creates a welcoming atmosphere where children feel encouraged, appreciated and proud to be part of the school community. These shared occasions allow families to witness the vibrant experiences offered at school and celebrate the efforts and achievements of learners.

When parents take time to attend, observe and engage, they send a powerful message to children: their learning, interests and experiences matter. Their encouragement builds confidence and gives students a sense of belonging. Such gatherings also provide opportunities for parents to connect with one another and develop a supportive network around the school.

PARTICIPATION BEYOND THE CLASSROOM

Interactive activities give parents an opportunity to step into the school experience and share joyful moments with students and teachers. Taking part in games and activity stations encourages friendly interaction, teamwork and a sense of togetherness. These experiences show that learning can be lively, collaborative and enjoyable beyond regular classroom lessons.

By trying new activities, cheering one another on and enjoying the experience, parents model confidence, enthusiasm and a positive attitude for children to follow. Students see their families appreciating effort and respecting others, reinforcing the values of cooperation and sportsmanship.

SHARING IDEAS AND EXPERIENCES

Meaningful school events create space for conversations between parents, teachers and students. These interactions help families understand the activities taking place at school and appreciate the planning and effort that go into providing varied learning experiences. Parents can observe how children participate, communicate and respond in a supportive group setting.

Open communication and shared experiences build trust. Parents can exchange ideas, offer encouragement and strengthen their partnership with educators, helping create a consistent support system for children at school and at home. Every interaction adds value to this partnership and supports a caring environment for learners.

A COMMUNITY THAT LEARNS TOGETHER

The presence of parents and family members reflects their interest in the school's initiatives and their support for student participation. Being present, listening and encouraging children helps make every event feel valued and special. It reassures students that the important people in their lives care about their school experiences.

Star Meet and other school gatherings remind us that education is a shared journey. When parents and educators work together, children benefit from a caring community that celebrates effort, nurtures confidence and inspires them to participate wholeheartedly. We sincerely appreciate every parent who contributes time, energy and encouragement.

THANK YOU FOR BEING PART OF OUR JOURNEY

Your time, encouragement and active involvement make Star Meet and school events vibrant celebrations of partnership, learning and belonging. Together, let us continue to create opportunities where every child feels supported, confident and inspired.

COMPETITION & EXAM PREPARATION

Learning with Focus, Growing with Confidence

At Brigade Public School, students are encouraged to prepare for competitions and examinations through regular practice, guided learning and meaningful opportunities to demonstrate their abilities. These experiences help learners strengthen their knowledge, develop concentration and approach every challenge with confidence. Whether practising creative tasks or working through academic exercises, students learn the value of preparation, patience and consistent effort.

CREATIVITY, PRACTICE & PRESENTATION

Creative activities give students opportunities to explore ideas, express themselves and develop originality. As they prepare for art-based tasks and other creative competitions, learners practise observing details, planning their work and communicating ideas through colour, shape and design.

Such preparation nurtures patience, imagination and confidence. Students learn to work independently, use materials thoughtfully and complete a task with care. The experience also reminds them that creativity grows through exploration, practice and the courage to try something new.

BUILDING SKILLS THROUGH REGULAR PRACTICE

Consistent practice plays an important role in helping students prepare for competitions. By spending time on activities, reviewing their work and learning from each attempt, children gradually improve their accuracy, presentation and ability to manage a task.

Teachers encourage learners to focus on progress rather than perfection. Each practice session becomes an opportunity to recognise strengths, identify areas for improvement and develop a positive attitude towards challenges. These habits support students in competitions as well as in everyday classroom learning.

GUIDED ACADEMIC PREPARATION

Focused preparation helps students strengthen subject knowledge and become familiar with the types of questions and tasks they may encounter in examinations and academic competitions. Guided practice gives learners time to read instructions carefully, understand concepts and apply what they have learnt.

With appropriate support and feedback, students can clarify doubts, revise important ideas and develop effective ways to approach questions. This process builds a stronger foundation and encourages learners to take responsibility for their own progress.

CONFIDENCE THROUGH ASSESSMENT PRACTICE

Working through practice papers and learning activities helps students become more comfortable with assessment situations. It gives them an opportunity to apply concepts, think independently and organise their responses. Regular revision also helps learners recognise what they understand well and where further practice may be useful.

Students are encouraged to approach examinations calmly, manage their time thoughtfully and read every question with care. The aim is not only to prepare for a result, but also to develop discipline, resilience and confidence that will support them throughout their learning journey.

PREPARATION TODAY, CONFIDENCE TOMORROW

At every stage, students are reminded that sincere effort, regular revision and a willingness to learn are the foundations of progress. We appreciate the guidance of our teachers and the commitment of our learners as they prepare to participate, perform and achieve their best. Every attempt is an opportunity to learn, improve and move forward with confidence.

MUSIC & YOGA

Harmony, Mindfulness and Holistic Well-being

At Brigade Public School, learning extends beyond academic achievement to nurture creativity, confidence and well-being. Music and yoga sessions provide students with meaningful opportunities to express themselves, develop healthy habits and experience the benefits of rhythm, mindful breathing and calmness.

MUSIC – LEARNING IN HARMONY

Music is an enriching part of the learning experience at Brigade Public School. Through guided music sessions, students explore melody, rhythm and musical expression in an enjoyable and supportive environment. They listen attentively, learn songs, follow beats and participate in group activities that encourage them to express themselves with confidence. These experiences strengthen listening skills, concentration, memory and coordination while allowing children to discover and celebrate their individual talents. Singing and practising together also nurture teamwork, patience, discipline and a sense of togetherness. Music gives students a joyful space to communicate feelings, build self-assurance and appreciate the beauty of harmony.

As students practise, they learn to listen to one another, keep time and contribute as part of a group. Every tune and rhythm becomes an opportunity to develop confidence, creativity and attentive listening. These shared experiences make the classroom more lively and inclusive, while helping learners appreciate that every voice and contribution has value.

YOGA – BREATHE, FOCUS & FLOURISH

Yoga sessions help students develop body awareness, self-discipline and a calm, focused approach to everyday learning. As part of their yoga training, students are being introduced to Bhramari Pranayama, commonly known as the Bee Breathing Technique. Under the teacher's guidance, they learn to sit comfortably, relax their bodies, breathe in gently and breathe out slowly while making a soft humming sound like the buzzing of a bee. Students are encouraged to pay attention to the sound and natural flow of their breath, practising slowly and without strain. This mindful exercise offers an opportunity to pause, settle their thoughts and strengthen awareness and concentration. Through regular guided practice, students are learning the importance of patience, consistency and taking care of their overall well-being.

Along with breathing practice, students are encouraged to value quiet moments, follow instructions carefully and approach each activity with patience. These sessions reinforce the importance of caring for both physical and mental well-being as part of a healthy daily routine. By introducing simple practices in a supportive classroom setting, the school aims to help children carry positive habits into their everyday lives.

OUR COMMITMENT TO HOLISTIC GROWTH

Music inspires expression; yoga nurtures balance. Together, they help our learners grow with confidence, creativity and mindfulness.

FESTIVALS & CULTURAL HERITAGE

Celebrating Dussehra & Bathukamma

Brigade Public School celebrated the spirit of Dussehra and the vibrant beauty of Bathukamma through joyful student participation, cultural presentations and shared traditions. The festivities offered children an opportunity to understand the values behind our festivals, appreciate Telangana's cultural identity and experience the happiness of celebrating together. From confident voices on stage to the colourful floral arrangements, every moment reflected learning, respect and a strong sense of community.

DUSSEHRA: THE TRIUMPH OF GOOD

Dussehra reminds us that truth, courage and righteousness always prevail over evil. The celebration gave students a chance to reflect on the timeless message of the festival and the importance of choosing what is right. Through student speeches and stage presentations, children shared their understanding of the values represented by the occasion. Their confident participation helped develop public-speaking skills, self-expression and respect for India's epic stories and traditions.

The programme also encouraged learners to practise these values in everyday life: to be honest, stand up for what is right, show kindness to others and face challenges with courage. In this way, the meaning of Dussehra became more than a story—it became a lesson for life.

BATHUKAMMA: A CELEBRATION OF FLOWERS

The school campus blossomed with colour as students and teachers came together to celebrate Bathukamma, Telangana's much-loved floral festival. The beautifully arranged Bathukamma, made with layers of seasonal flowers, became the centre of the celebration. Children enjoyed the festive atmosphere, songs and rhythmic clapping while learning about the customs that make this tradition so special.

Bathukamma also offered a meaningful reminder of our bond with nature. Students were encouraged to value flowers and seasonal plants, respect the environment and take pride in the cultural heritage of their region. The gathering reflected the spirit of togetherness, gratitude and community that lies at the heart of the festival.

LEARNING THROUGH OUR TRADITIONS

The celebrations created lasting memories and strengthened the bond between students and teachers. By taking part in cultural activities, children developed confidence, cooperation and an appreciation of the traditions that shape our community. At Brigade Public School, every celebration is an opportunity to learn, share and grow—keeping our heritage alive for the next generation.

DIGITAL LEARNING & STUDENT VOICE

TED-Ed Talks: Ideas Worth Sharing

Brigade Public School encourages students to become confident communicators, curious thinkers and active participants in the world around them. Through the TED-Ed Talks broadcasting initiative, learners get an opportunity to present their thoughts, share what they have discovered and communicate meaningful ideas to an audience. The recording experience helps transform classroom learning into an engaging platform for expression and creativity.

A PLATFORM FOR EVERY STUDENT'S VOICE

The photograph captures a student preparing to deliver a talk while the recording team supports the broadcast process. With guidance from teachers and the production team, students learn how to organise their thoughts, speak clearly and present their ideas with confidence. The experience introduces them to the process of speaking in front of a camera and sharing their message with a wider audience.

BUILDING CONFIDENCE THROUGH COMMUNICATION

Preparing for a TED-Ed Talk encourages students to think deeply about a topic, identify the message they wish to communicate and arrange their ideas in a clear, logical sequence. As they practise and refine their presentations, they strengthen public-speaking skills, vocabulary, voice modulation and the ability to connect with listeners.

FROM CLASSROOM LEARNING TO BROADCAST

The broadcasting process gives students valuable exposure to digital communication. They observe how a recording space is arranged, how microphones and cameras are used and how a speaker prepares before recording. This hands-on experience nurtures digital awareness, teamwork, responsibility and respect for the effort that goes into producing a presentation.

IDEAS THAT INSPIRE

Every talk is an opportunity for a learner to share a perspective, explain an idea or inspire others through personal learning. The initiative celebrates curiosity and originality while helping students understand that their voices matter. With every presentation, they take another step towards becoming thoughtful, articulate and confident communicators.

LEARNING BEYOND THE CLASSROOM

TED-Ed Talks broadcasting is more than a recording activity—it is a meaningful learning experience that brings together research, creativity, communication and technology. By giving students the space and support to share their ideas, Brigade Public School helps nurture independent thinkers and confident voices, ready to make a positive impact.

GROWING THROUGH EVERY VOICE

THINKING WITH PURPOSE

As students prepare their talks, they learn to look beyond the first answer. They explore a subject, select useful information and shape it into a message that is meaningful to their audience. This process encourages curiosity, independent thinking and the confidence to express a point of view.

LEARNING THROUGH PRACTICE

Each rehearsal helps learners become more comfortable with their own voice. They practise speaking at a steady pace, choosing clear words and responding thoughtfully to guidance. Working with classmates and teachers also builds patience, cooperation and the ability to learn from feedback.

CONFIDENT VOICES, RESPONSIBLE DIGITAL CITIZENS

Presenting before a camera introduces students to the responsibilities of sharing ideas through digital platforms. They learn to prepare carefully, respect different opinions and communicate with purpose. These experiences help them grow as considerate collaborators and responsible young communicators.

LIFE SKILLS & STUDENT WELL-BEING

Learning Good Habits Through Practice

At Brigade Public School, students are guided to develop the everyday habits that support healthy, responsible and independent living. Through teacher-led explanations and practical activities, children learn to listen carefully, follow instructions, keep their surroundings clean and take responsibility for their actions. The activities captured here show students learning through interaction, observation and hands-on participation.

TEACHER GUIDANCE AND STUDENT INTERACTION

Students gather around their teacher as she explains and reviews printed learning material with them. The interaction encourages children to listen attentively, observe carefully and ask questions when they need clarification. Such guided conversations help students practise respectful communication, focus and the discipline of following instructions.

LEARNING THROUGH DEMONSTRATION

The teacher shares illustrated material with a student while classmates observe and take part in the session. Visual explanations make key messages easier to understand and remember. Students learn the importance of paying attention, handling learning materials carefully and putting the guidance they receive into practice in their daily routines.

PRACTISING THE RIGHT WAY TO DISPOSE OF WASTE

A student demonstrates the simple but important habit of placing waste in a dustbin while the teacher guides the group. This practical activity helps children understand that cleanliness is a shared responsibility. Students are encouraged to use bins correctly, avoid littering and keep school spaces neat and welcoming.

RESPONSIBILITY IN EVERYDAY ACTIONS

With the teacher nearby, a student carefully puts an item into the waste bin as classmates watch. The activity reinforces the value of taking responsibility for personal actions and caring for common spaces. Repeated practice of small habits such as disposing of waste properly helps build self-discipline and consideration for others.

GOOD HABITS THAT STAY WITH US

Alongside these practical lessons, students are encouraged to be punctual, organise their belongings and use their time wisely. They are also reminded to maintain personal hygiene, keep themselves neat and practise cleanliness throughout the school day. When children learn to listen, follow routines and take ownership of small responsibilities, discipline becomes a natural part of everyday life. With continued guidance from teachers and families, these simple habits can grow into lifelong values.

ROAD SAFETY AWARENESS

Safe Roads, Responsible Choices

Brigade Public School organised an engaging Road Safety Awareness Programme in association with Honda and Sarvejana Foundation, bringing students together to understand the importance of traffic rules, road discipline and responsible behaviour on the road. The session combined an informative presentation, practical messages and student participation to make road safety meaningful and memorable.

LEARNING THE RULES THAT SAVE LIVES

The resource person explained essential road safety practices and highlighted how a moment of carelessness can lead to serious consequences. Students learnt about traffic signals, road signs, pedestrian crossings and the importance of being alert whenever they are near a road.

Through a real-life case study, the speaker discussed the road accident involving cricketer Rishabh Pant, explaining the importance of timely help, safe driving habits and responsible action. The discussion helped students connect the lessons to situations they may encounter in everyday life.

The session reinforced simple but vital habits: wearing a helmet while riding a two-wheeler, fastening seat belts, following speed limits, using zebra crossings and never using a mobile phone while driving. Students were also reminded never to travel with a driver who is under the influence of alcohol.

STUDENTS TAKE THE SAFETY MESSAGE FORWARD

The programme encouraged active participation and thoughtful reflection. Students presented colourful placards carrying powerful messages such as “Wear a Helmet, Save a Life”, “No Mobile While Driving” and “Say No to Drink and Drive”. Their enthusiasm reflected a growing understanding that road safety is everyone’s responsibility.

The interactive presentation gave learners an opportunity to ask questions and recognise the role each person plays in preventing accidents. They understood that pedestrians must stay attentive, cyclists should follow safety rules and passengers can encourage drivers to make safe choices.

By sharing these messages with their families and friends, students can become young road-safety ambassadors. The programme served as a timely reminder that awareness, patience and discipline can protect lives and make our roads safer for everyone.

OUR PROMISE: SAFETY FIRST, ALWAYS

Let us make every journey a safe one. Follow traffic rules, respect fellow road users, wear protective gear and stay attentive. When children practise and share these habits, they help build a safer community. Road safety begins with each one of us.

PRE-PRIMARY ACTIVITY

Little Hands, Big Creativity

Our pre-primary learners enjoyed a joyful blend of colouring and painting activities. Using crayons, brushes and bright paints, the children explored colours, expressed their ideas and transformed simple sheets of paper into cheerful works of art.

COLOURING OUR WORLD

The children enthusiastically coloured pictures and explored different shades through guided creative tasks. These experiences strengthened colour recognition, fine motor skills, hand-eye coordination and the ability to follow simple instructions. As they selected colours and completed their artwork, learners practised patience, concentration and independent expression. Every picture reflected a little learner's unique imagination and growing confidence. The activity also encouraged children to share materials, appreciate one another's work and take pride in their own creative efforts.

The outdoor group painting activity brought extra excitement as children worked together to create a bright and colourful flower. Each child contributed a different colour, making the artwork a joyful expression of teamwork. Working collaboratively helped children develop sharing, cooperation, social interaction and confidence. Painting in an open space also made learning lively and memorable, connecting creativity with exploration. Through these hands-on experiences, our little learners discovered that learning can be playful, meaningful and full of colour.

GROWING THROUGH CREATIVITY

At Brigade Public School, we believe every little creation is a big step towards learning, growing and shining. We celebrate the curiosity and imagination that make each child's learning journey special.

STEAM EDUCATION

Building, Exploring & Learning with Robotics

Our students stepped into the exciting world of robotics through a hands-on STEAM activity. With guidance and teamwork, they explored a robotics kit, assembled components and discovered how simple mechanical and electrical parts can work together to bring an idea to life.

FROM IDEAS TO WORKING MODELS

Students worked in small groups to understand the parts of the robotics kit and assemble the model step by step. They observed the components closely, followed instructions and carefully connected the pieces with support from the facilitator.

The activity introduced learners to basic ideas of engineering, design and how moving parts can be brought together to create a model. It encouraged curiosity and gave students an opportunity to learn by doing.

Every step—from identifying a component to fitting it in place—helped students build patience, concentration and confidence in handling a practical task.

TEAMWORK, THINKING & DISCOVERY

With the facilitator's guidance, students explored how the different parts fit together and worked patiently to assemble their model. They shared ideas, asked questions and supported one another throughout the process.

The hands-on experience nurtured problem-solving, logical thinking, creativity and collaboration. Students also learnt that testing, adjusting and trying again are important parts of the design process.

The session made STEAM learning engaging and meaningful, showing students how science, technology, engineering, art and mathematics connect in real-life experiences.

LEARNING THAT MOVES IDEAS FORWARD

At Brigade Public School, we encourage our learners to question, create and experiment. Every hands-on challenge is an opportunity to think differently, work together and turn curiosity into discovery.

STUDENT VOICE & PARTICIPATION

Circle Time: Every Student Matters

Circle Time gives every learner a welcoming space to speak, listen, share ideas and take part. Through guided conversations and small-group interactions, students are encouraged to express themselves with confidence and feel valued as important members of the classroom community.

EVERY VOICE DESERVES TO BE HEARD

Students gather in a supportive circle where each child gets an opportunity to share thoughts, ask questions and contribute. Teachers guide the discussion, listen patiently and encourage even the quieter learners to participate. This helps every student feel included and respected.

The interactions strengthen speaking and listening skills, build confidence and help children learn to express their ideas clearly. Students also practise taking turns, paying attention and responding thoughtfully to others.

LEARNING THROUGH CONNECTION

Circle Time creates meaningful opportunities for teachers to understand students' learning needs, interests and concerns. Through simple questions, peer discussions and individual attention, teachers can encourage curiosity and support academic growth.

By giving equal importance to every student, the activity nurtures a positive classroom atmosphere where learners feel safe to participate, learn from one another and progress at their own pace.

A SPACE FOR EVERY LEARNER

At Brigade Public School, we believe that every child has a voice and every learner matters. Circle Time strengthens relationships, encourages participation and reminds students that learning grows when everyone is included.

LOOKING AHEAD

Upcoming Events

The excitement of learning continues at Brigade Public School! We look forward to bringing our students together through experiences that encourage curiosity, creativity, collaboration and cultural appreciation.

IMAGINE • CREATE • CELEBRATE • GROW

SCIENCE • TECHNOLOGY • CREATIVITY

CURIOSITY IN ACTION

STREAM Exhibition

Our students will get an opportunity to showcase their ideas, imagination and problem-solving skills through the STREAM Exhibition. The event celebrates learning by doing, where science, technology, engineering, arts and mathematics come together. We look forward to seeing our young innovators present their creative thinking and learning with confidence.

A FESTIVAL OF LIGHT

Diwali Celebrations

Our school will come together to celebrate the spirit of Diwali, a festival that reminds us of the triumph of light over darkness and good over evil. Through joyful cultural moments and festive participation, students will have an opportunity to appreciate traditions, share happiness and understand the values of kindness, gratitude and togetherness.

WITH HEARTFELT THANKS

As we bring this month's newsletter to a close, we extend our sincere gratitude to our parents for your trust, encouragement and continued partnership. Your support strengthens every step of your child's learning journey. We also thank our dedicated staff for their commitment, care and tireless efforts in creating meaningful experiences for our students.

TOGETHER, WE LEARN • TOGETHER, WE GROW • TOGETHER, WE SHINE

THANK YOU, DEAR PARENTS & STAFF!

Every little effort makes our school community stronger.
